Forecast for Friday 11 Nov 2022

Weather: Mild, but cloudy with outbreaks of rain or drizzle and areas of hill fog, but becoming drier through the afternoon with perhaps a little brightness breaking through. Cloud breaking in the evening, though patchy fog and low cloud will form in the dales. Windy for most of the day, with gusty winds.

Chance of cloud-free hill tops above 600m: 10% in morning, then 30%, but improving to 60% in evening

Low cloud and visibility: Very poor visibility in extensive cloud above 500-600m, but occasionally 400m in west, but cloud breaking a little in the afternoon and breaking up in evening. Mostly good visibility beneath cloud, but poor at times in rain and drizzle and some fog patches later.

Meteorologist's View

Mild and damp even on the tops. Gusty winds, with perhaps stronger gusts on leeward slopes. Buffeting in winds will make movement at height rather challenging.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Wed 09 Nov 2022	1.8mm	8mm	9mm

Forecast for Saturday 12 Nov 2022

Weather: Some clear spells overnight but with low cloud tending to thicken and perhaps some fog forming in valleys. Low cloud and any fog lifting through the morning with some bright or sunny spells developing, though these mostly in the northwest, with southern and eastern slopes likely to see low cloud persist through the day

Maximum wind: Southwest winds turning southerly, 15-20mph, but 25-30mph gusts 40mph near summits.

Chance of cloud-free hill tops above 600m: 10% becoming 70% in the northwest, but closer to 30% in south and east

Low cloud and visibility: Very poor in areas of cloud at first above 400m, but cloud top likely to be as low as 600m in places, so the higher tops may be cloud free. Cloud base generally lifting to 600-700m in morning and breaking and to become scattered at times, but periods of cloud still down to 400m onto southern and eastern slopes. Mostly good visibility at low levels, away from any fog patches.

Temperature: **Valleys:** 11 C rising to 14 C, but possibly 18 C in sunshine in northwest
At 600m: 9 C
Freezing level: Well above the tops.
